

## High Performance Construction Films

**Nu-Age Films** are the future of plastic film/sheeting for construction, industrial and agricultural applications. Unlike other film/sheeting materials, **Nu-Age Films** are designed and manufactured utilizing prime virgin resin.

In addition, **Nu-Age Films** have better performance at less weight per roll when compared to standard plastic film/sheeting.

**Nu-Age Films** will exceed several standard films of higher weight and thickness thus eliminating the need for multiple purchases allowing for cost savings and increased profits.
