

SNOWPLOW

THE BOSS SNOWPLOW PRODUCT LINEUP

Power-V DXT Plows

Stainless 8'2", 9'2" Steel 8'2", 9'2", 10'0" Poly 8'2", 9'2"

The all-new Power-V DXT is the first v-plow from THE BOSS to feature both a trip-edge and a full moldboard trip design, making a true "dual trip" plow. This fully-featured plow provides enhanced blade and vehicle protection by greatly reducing impact forces from obstacles such as manhole covers all the way up to frozen snowbanks. The result: less wear and tear on the plow and the vehicle in the long run!

Power-V XT Plows

Steel 7'6", 8'2", 9'2" Poly 8'2", 9'2"

The Power-V XT family of full moldboard trip plows are designed to perform and last under the harshest conditions imaginable! The tough-looking, long-lasting, flared wing design keeps snow moving quickly away from the vehicle, allowing for excellent snow removal efficiency and performance. Available in both steel and poly blades, the Power-V XT family has quickly become legendary in the snow plowing world - and for good reason -- they get the job done and look great while doing it!

Power-V Plows

Steel 7'6", 8'2", 9'2" Municipal 10'0"

The high-value workhorse Power-V family of full moldboard trip plows are designed to perform and last under the harshest conditions imaginable! The flat-top wing design moves snow efficiently. Tried and true, the Power-V plows from THE BOSS have been clearing snow for decades - and are built to last.

Straight-Blade Plows

**Sport-Duty Poly 7'0", 7'6" Standard-Duty Steel 7'6", Poly 7'6"
Super-Duty Steel 7'6", 8'0", 8'6", 9'0" Poly 8'0" Municipal 10'0"
Trip-Edge 7'6", 8'0", 9'0"**

The simple, durable, and legendary BOSS straight blades are true snow plowing machines. Their rugged construction and durable finish keep them looking good and plowing snow for years. With full moldboard and trip-edge models available, THE BOSS has a straight blade designed for any snow removal job in the industry. A full line of both steel and poly offer a very versatile family of plows for vehicles ranging from half-ton all the way up to heavy duty trucks.

UTV Plows

Steel Power-V XT 6'6" Poly Straight 6'0"

The UTV blades are premium, durable, fully-featured plows built with the same materials and standards as our legendary, tough pickup truck plows. Featuring a hydraulic lift system, these plows are quick and easy to operate. Available in either the steel Power-V XT blade or poly Straight Blade configuration, these plows are up to any snow removal task your UTV can handle!

(*All BOSS truck plow packages include blade, light tower, fully enclosed hydraulic package, undercarriage, and in-cab control.)

ATV Plows

5' Poly Straight Blade

The new BOSS ATV plow is built for the professional snow removal contractor. This 60", poly straight blade ATV plow is fully hydraulic - no more winches to freeze up, handles to bend or pulleys to break. Power lift and power angle come at the push of a button. The hydraulics are fully - enclosed, keeping them free of damaging water, moisture and salt. The hydraulics are located high off the ground, keeping them away from impact damage. The plow and its push frame are easily removed from the ATV with the BOSS quick attachment system. Built side-by-side with BOSS pickup truck plows, this ATV plow is built to last.

Box Plows

BX-12

The BX-12 is a fully-featured, tough, durable box plow that lives up to THE BOSS name. The BX-12 features a sectional trip-edge design and self-adjusting wings to minimize impacts and keep the cutting edge in contact with the pavement for excellent scraping and efficiency.

Skid Steer Box Plows

B-8, B-10

The B-8 and B-10 family of skid steer box plows are built to maximize snow-moving efficiency while providing years of durability and reliability. Each model features BOSS' unique bolt-on wings which are replaceable should a severe impact occur while plowing. The universal skid steer attachment plates have built-in float and pivot features to keep the blade on the ground while negotiating rough terrain. Both models feature BOSS' tough trip-edge design, to minimize impact from obstructions such as manhole covers and curbs.

VBX8000 Hopper Spreader

VBX8000 - 2 Yard Capacity

The new VBX8000 v-box spreader from BOSS is designed for the professional who appreciates attention to detail. Starting with an over-sized 1/2 horsepower, sealed all-stainless steel motor system, with both worm and planetary gears, the VBX8000 is true to The BOSS name for reliability and durability. Available in both pintle and auger systems, the VBX8000 can overcome even the worst winter conditions to keep your business on track. Features like auxiliary work lights, CHMSL light, tarp with/integral tie downs, and vibrators (auger model) are standard - which some competitors sell as options.

Tailgate Spreaders

6 CU FT, 400-LB Capacity - Salt, Deicers

8 CU FT, 780-LB Capacity - Sand, Salt, Deicers

11 CU FT, 800-LB Capacity - Salt, Deicers

THE BOSS lineup of tailgate spreaders offer outstanding performance and the legendary BOSS toughness and durability. All models are available with BOSS' SmartHitch Attachment System for easy on-and-off operation. The TGS 800 features a dual motor design and the ability to spread both sand or salt/de-icers for outstanding versatility.
